

ROAD CLOSURE ALERT: The Surratt Historic Site and Museum is open!

Due to construction, though, please use one of the options below to reach Surratt:

Traveling South on Route 5/Old Branch Ave: At the intersection where Old Branch Ave turns into Brandywine Rd (the Surratt House will be diagonally across the way and the road closure directly in front of you), turn left on to Woodyard Rd. Next, take your first right (Pine View Lane) and, again, take your first right (Clinton Manor Rd). At the end of Clinton Manor Rd, turn right on to Brandywine Rd. Finally, turn right on to the last street before the road closure (Horseshoe Rd). If you follow the curve of that road almost the entire length of its horseshoe shape, the entrance to the Surratt Site parking lot will be at the end on your right.

Traveling West on MD-223/Woodyard Rd: Before the intersection where Woodyard Rd turns into Piscataway Rd (right after passing the on/off ramps for Route 5), take a left on to Pine View Lane. Then, take your first right (Clinton Manor Rd). At the end of Clinton Manor Rd, turn right on to Brandywine Rd. Finally, turn right on to the last street before the road closure (Horseshoe Rd). If you follow the curve of that road almost the entire length of its horseshoe shape, the entrance to the Surratt Site parking lot will be at the end on your right.

Traveling East on MD-223/Piscataway Rd: Go through the intersection where Piscataway Rd turns into Woodyard Rd (you will pass the Surratt on your right). Next, take your first right (Pine View Lane) and, again, take your first right (Clinton Manor Rd). At the end of Clinton Manor Rd, turn right on to Brandywine Rd. Finally, turn right on to the last street before the road closure (Horseshoe Rd). If you follow the curve of that road almost the entire length of its horseshoe shape, the entrance to the Surratt Site parking lot will be at the end on your right.

Traveling North on Brandywine Rd., from Route 5 via Surratts Rd: turn right on to the last street before the road closure (Horseshoe Rd). If you follow the curve of that road almost the entire length of its horseshoe shape, the entrance to the Surratt Site parking lot will be at the end on your right.

If you would like to park at the CITGO (9100 Piscataway Rd, Clinton, MD 20735) across the street from the Surratt Site and walk to the visitor center, their management has graciously agreed to let visitors do so.
